Visit our website for wide selection of designed Sanshins.

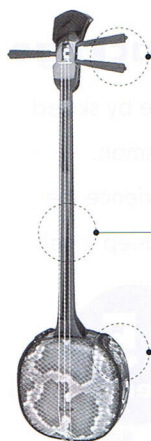

Wanna Enjoy
Sanshin Simply?

WHAT'S SANSHIN?

The "Sanshin" is a three stringed instrument that looks like a banjo. This old history and distinct tone loved by Okinawan people. It's becoming popular in mainland Japan and spreading throughout the world.

PEG

Karakui/Itokake

Karakui is a round threaded piece placed at the end of the sanshin to hold the pegs. Itokake is a peg used to tune the sanshin.

NECK

Sou

The long piece of wood that makes up the neck of the sanshin.

BODY

Dou

The square-like wooden body of the sanshin.

VISIT OUR SEASIDE GALLERY

Please visit our new style Sanshin Store & Gallery. Our store is located on the hill in Yomitan Village. You can see, touch and try variety of Sanshins. If you want to know about Sanshin before you buy, join our workshop! The owner will explain how to hold, pick notes and play a basic melody. He's taught Sanshin to over 5,000 people. He is ready and willing to comply with your question or request!

FREE ENGLISH MANUAL

Since we provide a free practice manual (10 pages) in English, we ship to five to ten different countries every month. All songs use C.D.E chord chart so it is easy to understand for beginners.

TROPICAL CONCEPT DESIGN A STRINGED INSTRUMENT *Tropication*

What's Tropication?

Tropication, a newly coined word, is made up of "Tropical" and "Collaboration." We started this project with the hope of facilitating the tropics' beautiful nature and cultural interchange.

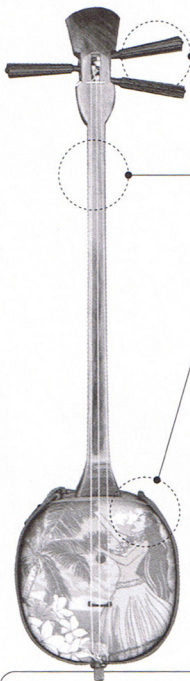

Sanshin

Authentic Sounds and Novel Design

Exiting, sophisticated designs by Okinawan and mainland designers gratify your curiosity. Built and fine tuned by 40 years experienced craftsman.

Check our Monthly Tropication!

As we ponder over the project, we only create one Tropication Sanshin a month. "Design one never tires of" is our philosophy. You'll feel a great sensitivity in those pieces.

✿ P E G

Karakui/Itokake

As a speciality shop, we select prompt parts for each Tropication from plenty of choice. Give thoughtful attention to the balance of color, material and design.

✿ N E C K

Sou

To prevent a Sanshin from cracks and distortion, we select the 5 year-seasoned wood and finish carefully. Plumeria shaped position stickers are finished with special protective coating. Not just long-lasting but stylish too. Tropication can also be custom-made to suit your own requirement. Ebony wood and oak are very popular.

✿ B O D Y

Dou

To not disturb the design, our years experienced craftsman covers body strongly with studious care. As a part of the project, we also design original body belts set a high value on coloring and texture to fit the Tropication. You will know it by the name-tag on it.

✿ Speck of Tropication ✿

- Neck : Makabi ○Material : Oak
- Peg : Ebony Wood / Suimdy All Black
- Weight : 1.5kg ○Leather : Artificial
- Coating : Artificial Lacquer / Natural Brown
